

kleurwiel

Die primêre of *onmengbare* kleure is blou, rooi en geel.

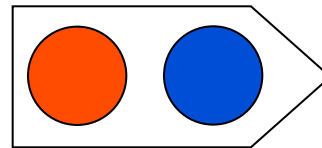

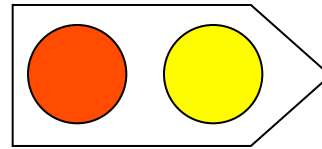

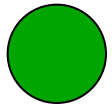

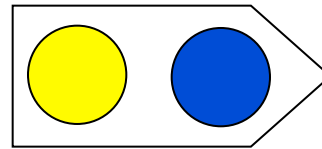

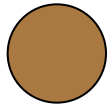

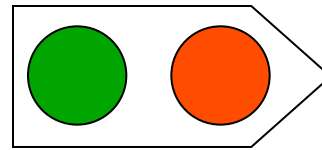

Die sekondêre kleure word verkry as die primêre kleure op 'n spesifieke wyse gemeng word.

Geel en blou maak groen.

Rooi en blou maak pers.

Geel en rooi maak oranje.

meng hierdie kleure

Voeg wit by om 'n kleur ligter te maak en swart om dit donkerder te tint.
