Dr Reginah Mhaule,
Deputy Minister of Basic Education

This workbook for English First Additional Language (FAL) is the newest addition to the Department of Basic Education's Rainbow Workbook Series.

The English First Additional Language books are an important enhancement of the series and support the Department's approach to additive bilingualism.

Many children start using their additional language, English, as the Language of Learning and Teaching (LoLT) in Grade 4. The switch from learning in their home language to learning in a second language means that children have to reach a high level of competence in English by the end of Grade 3 so that they are able to read and write well in English in Grade 4. The Rainbow Workbooks, in the eleven official languages from Grade 1 to Grade 6, help develop a strong literacy foundation upon which children can build in acquiring an additional language.

The new FAL workbooks start by constructing a sturdy oral foundation in Grade 1 to enable learners to read and write in English in Grades 2 and 3, and thereafter.

However, the school curriculum makes particular language demands, requiring learners to use a special style of language for learning purposes – for reading school texts, writing academic texts, listening to teachers and taking notes, doing group work, using charts and graphs, writing exams, and so on. We have attempted therefore to develop the learners' understanding and use of academic language (their Cognitive Academic Language Proficiency) so they are able to use the specialised language they will need when they use English to learn their other subjects.

We have built in many methods and techniques to help learners acquire the skills they need in the foundation and intermediate phases. We hope that teachers will use these as a springboard for innovation in their teaching of English. We hope also that the children will have as much joy in working through these workbooks as we had in preparing them.

We wish you well as you proceed to develop the language skills of your learners so that they learn English well enough to use it to learn their other subjects.

We, the people of South Africa,

Recognise the injustices of our past;

Respect those who have worked to build and develop our country;

Honour those who suffered for justice and freedom in our land;

Believe that South Africa belongs to all who live in it, united in our diversity.

We therefore, through our freely elected representatives, adopt this Constitution as the supreme law of the Republic so as to:

Heal the divisions of the past and establish a society based on democratic values, social justice and fundamental human rights;

Lay the foundations for a democratic and open society in which government is based on the will of the people and every citizen is equally protected by law;

Improve the quality of life of all citizens and free the potential of each person; and

Build a united and democratic South Africa able to take its rightful place as a sovereign state in the family of nations.

May God protect our people.
